Torggler is passion!
For quality,
for innovation and
for professionalism!

“

Benno Pamer

A handwritten signature in black ink, appearing to read 'Pamer Benno', written over a light gray background.

158 YEARS HISTORY & TRADITION

We were born in 1865

We have more than 158 years of history and tradition and we feel younger and more dynamic than ever.

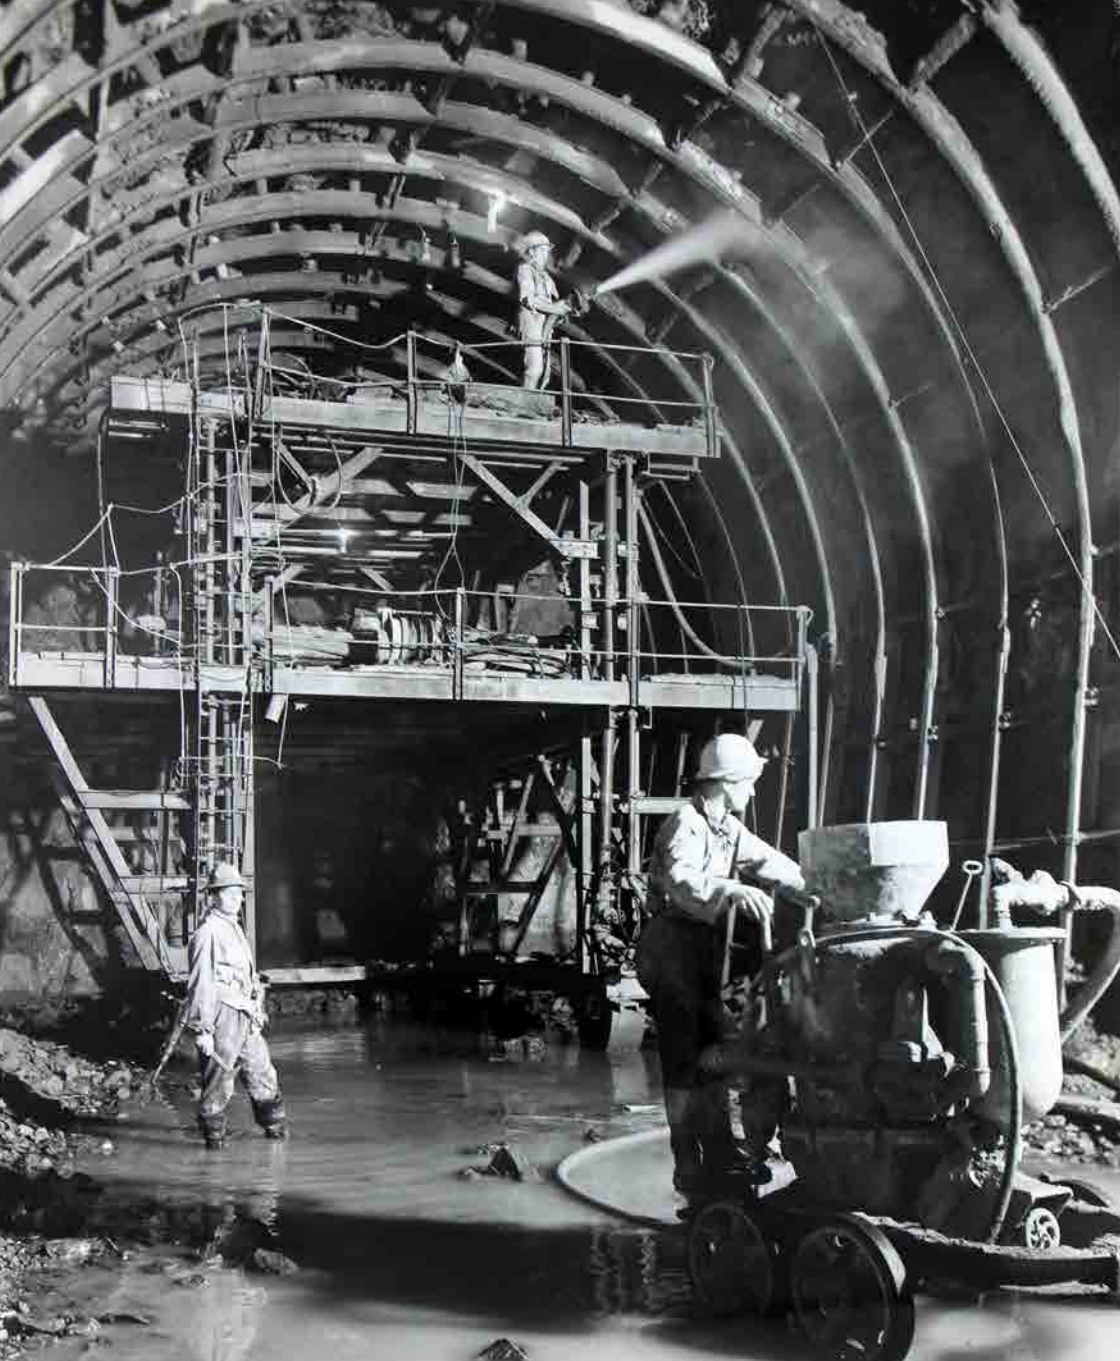

Torggler

1865

Established as a small family business, it rises to become one of the most important companies in the region.

Nowadays, it is an international producer for technical building materials.

2023

We are international in our vision,
because professionalism knows no
boundaries.

**We are manufacturers of
technical building
systems and products.**

We provide assistance and
solutions to those who, every day,
work in the industry to improve
the quality of people's lives.

Torggler

We live our values

Our success is not taken for granted but is achieved through curiosity, availability, reliability and transparency.

As a family business with a long tradition, we react dynamically to changes, but we have internalised our values and live them anew every day.

VALUES

Customer-oriented

Team-oriented

Results-oriented

We are a group based in...

Italy, Poland and Germany,
this is because we strongly believe
in internationalization, collaboration
and free transfer of ideas and talents.

Because it is only by looking beyond
that that we can really grow, as a
company and as individuals.

- **Marling (IT)** - Headquarters, Laboratory & Academy
- **Rieti (IT)** - Production (powder products, silicones, liquids)
- **Zgierz (PL)** - Headquarters, production (powder products)
- **Oberhaching (D)** - Headquarters and Sales Germany
- **Bergamo (IT)** - Production (powder products)
- **Prag (CZ)** - Production (Polyurethane foams)
- **Pegognaga (IT)** - Production (Polyurethane foams)

MISSION

The outstanding contribution we make.

- System solutions and special applications
- Competent and technical advice
- Reliable and durable products
- An attractive workplace
- Long-term partnerships

VISION

The ambitious goal we set ourselves.

- Distinct growth strategy
- Capital market-capable and meritocratic family business.

QUALITY AND KNOW HOW

Every day a step ahead.

Torggler

A QUALITY SUPPLY CHAIN.

THE DIVISION

New!

**New in the sector,
but not in quality.**

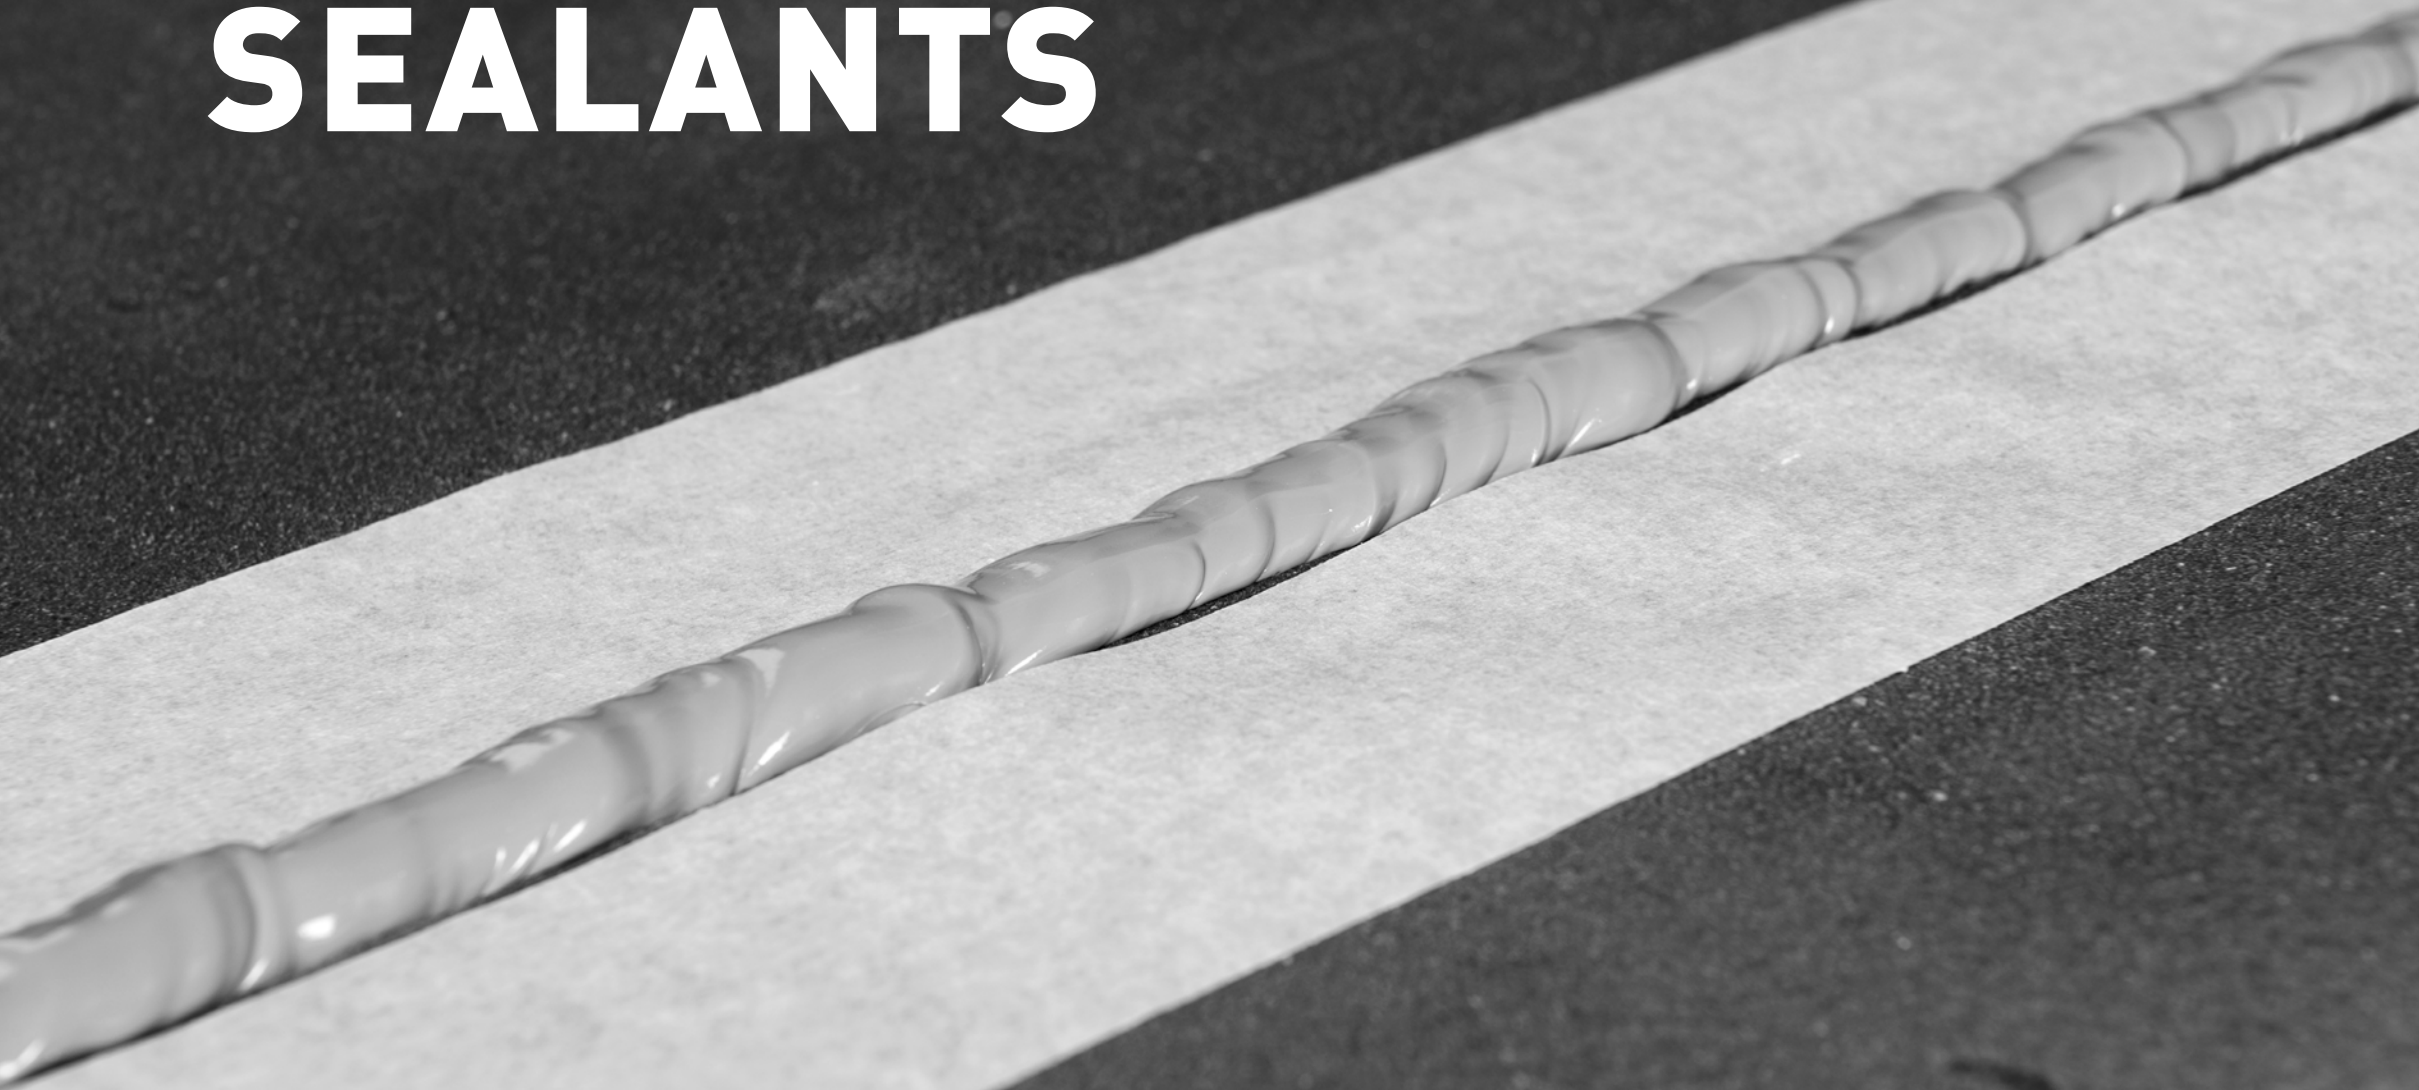

Our R&D department has taken up this challenge and developed a new generation of hybrid and silicone sealants and adhesives that can withstand all the critical conditions to which materials are exposed on the oceans.

POLYURETHANE FOAMS

WATERPROOFING

FLOORING

A close-up photograph of a rough, grey concrete floor. In the lower center, a metal tool, possibly a trowel or screed, is partially visible, showing its textured surface and some moisture. The lighting is even, highlighting the granular texture of the concrete.

TILES AND NATURAL STONE INSTALLATION

CONCRETE RESTORATION

A close-up photograph of a concrete restoration project. A large, dark, textured patch of repair material is applied to a light-colored concrete surface. The patch has a rough, uneven texture, suggesting it might be a specialized repair compound or a mixture of concrete and aggregate. The surrounding concrete is smooth and light-colored, providing a stark contrast to the dark, textured repair area. The text "CONCRETE RESTORATION" is overlaid in large, white, bold, sans-serif capital letters on the left side of the image.

ANCHORING AND MOUTING

A close-up photograph showing a mechanical process. On the left, a red, textured, circular object is partially visible. In the center, a dark metal rod or pin is being inserted into a hole in a light-colored wooden beam. The background consists of vertical metal bars and a dark, possibly glass or plastic, panel. The overall scene suggests a construction or manufacturing process.

RESTORATION

Torggler

A close-up photograph showing different types of thermal insulation. On the left, there is a dark grey material with a distinct, repeating hexagonal or bubble-like texture. To its right is a layer of light brown, fibrous material, possibly mineral wool, which appears slightly torn or peeling. Further right, a smooth, light-colored surface is visible. The overall composition highlights the physical properties and textures of these insulation materials.

WE BUILD THE FUTURE

**Starting with the attention to the talents
around us.**

We always strive for the highest quality, just
as we do in our search for new talent.

WE CARE

Looking at the world around us.

In our industry, attention to our surroundings is essential. From construction, to people, to the environment.

Therefore, we look to get better with our habits, in terms of impact as well as savings. Only by taking care of the present can we build a better future.
